GENERAL INDEX, 108, NO. 1, 2 AND 3 (1961)

Abe, Y. See Liu
Altland, P. D. See Smith, F.
Anthrax, electrocardiogram in, 85

Bacillus anthracis, autoradiographic study of infection in mice, 205
phage-fluorescent antiphage staining system for, 125
Bates, J. L. See Liu
Bauer, D. C., L. N. Eames, S. D. Sleight and L. C. Ferguson. The significance of leptospiral hemolysin in the pathogenesis of *Leptospira pomona* infections, 229
Berman, D. T. See Blobel
Bernard, G. R. Experimental trichinosis of the golden hamster. III. Urinary changes with observations upon the urinary uric acid/creatinine ratio, 1
Blobel, J. and D. T. Berman. Further studies on the in vivo activity of staphylocoagulase, 63
Bonventre, P. F., B. K. Nordberg and C. G. Schmiterlöw. An autoradiographic study of anthrax infection in the mouse, 205
Brown, A. See Hearn
Brucella, destruction of macrophage cultures by strains of different virulence, 333

Cabasso, V. J. See Jungherr
Circo, R. See Freeman
Coccidioides immitis, antigens of, 35
Cox, H. R. See Jungherr

Dabrowski, T. See Parnas
D'Alesandro, P. A. See Stelos
Denaro, S. A. See Griffith
Dietrich, A. M., Jr. See Griffith
Dineen, P. A period of unusual microbial susceptibility in an experimental staphylococcal infection, 174
Dowdle, W. R. and P. A. Hansen. A phage-fluorescent antiphage staining system for *Bacillus anthracis*, 125
Downs, C. M. See Merriott

Eames, L. N. See Bauer
Endotoxins from oral bacteria, preparation and biological activity of, 304
Erlandson, A. L., Jr. and L. A. Gagliardi. The pathogenesis of experimental enterococcal pyelonephritis in mice, 181
Erlandson, A. L., Jr., M. W. Fisher, L. A. Gagliardi, I. A. Pearson and B. A. Waisbren. Characteristics of strains of *Escherichia coli* associated with severe infections in adults, 189
Escherichia coli, severe infections in adults with, 189
Ewert, R. C. See Hamre

Feline pneumonitis virus, nonlethal mutant of, 287
Ferguson, L. C. See Bauer
Fisher, M. W. See Erlandson
Freeman, B. A., D. J. Kross and R. Circo. Host-parasite relationships in brucellosis. II. Destruction of macrophage cultures by brucella of different virulence, 333

Gagliardi, L. A. See Erlandson
Garrison, R. G. Studies of the respiratory activity of *Histoplasma capsulatum*. I. Aspects of the aerobic metabolism of the yeast phase, 120
Germfree animals, pneumonic disease in, 12
Gram-negative bacteria, endotoxins of, susceptibility to normal serum, 90
Grayston, J. T. See Johnston
Greenland, R. M. A nonlethal mutant of penicillin-resistant feline pneumonitis virus, 287
Greenland, R. M. and J. W. Moulder. A search for genetic interaction in the psittacosis group, 293
Griffith, L. J., A. M. Dietrich, Jr., S. A. Denaro and F. E. Will. Altered guinea pig response to tubercle bacilli following prior infection with drug-resistant bacilli, 53

Hackel, D. B. See Tan
Hampp, E. G. See Mergenhagen
Hamre, D., C. G. Loosli and R. C. Ewert. Antigenic variants of influenza A virus (PR8 strain). VI. Results of repeated passages of the same variant in mice immunized with monovalent homologous vaccine or polyvalent vaccine, 151
Hansen, P. A. See Dowdle
Hanson, R. P. See Trainer
Hardy, F. M. See Hearn
Hearn, H. J., Jr., A. Brown and F. M. Hardy. Alteration of virulence of Venezuelan equine encephalomyelitis virus after passage in L cell cultures and in mice, 237
Hemolysin, rabbit, chromatographic analysis of, 113
sheep erythrocyte, effect of high altitude acclimatization on, 311
Highman, B. See Smith, F.
Histoplasma capsulatum, aerobic metabolism of yeast phase, 120
Holmes, B. See Mogabgab

Influenza, Asian, titration of neutralizing antibody by hemadsorption inhibition, 19
Influenza virus, A and B in monkey kidney cultures, 315
antigenic variation in, 151

Jacobs, L. See Remington
Johnston, P. B. and J. T. Grayston. Titration of Asian influenza neutralizing antibody by use of hemadsorption inhibition in tissue cultures, 19
Jungherr, E. L., V. J. Cabasso, A. W. Moyer and H. R. Cox. Proposed method and evaluation of the monkey neurovirulence test for attenuated poliovirus vaccine, 247

Kagan, I. G. and L. Norman. Immunologic studies on *Trypanosoma cruzi*. III. Duration of acquired immunity in mice initially infected with a North American strain of *T. cruzi*, 213
Kaplan, M. H. See Tan
Karstad, L. See Trainer
Kobayashi, G. S. See Pappagianis
Koser, S. A., I. Tribby and J. T. Stuedell. Glucosamine utilization by some lactic acid bacteria, 324
Kóslak, A. See Parnas
Kross, D. J. See Freeman

Lactic acid bacteria, glucosamine utilization by, 324
Landy, M. See Michael
Lazuga, K. See Parnas
Leptospira pomona, oleic acid as growth factor for, 262
significance of hemolysin in pathogenesis, 229
Leptospirosis in Poland, 243
in white-tailed deer, 278
Liu, P. V., Y. Abe and J. L. Bates. The roles of various fractions of *Pseudomonas aeruginosa* in its pathogenesis, 218
Live, I. and A. C. Nichols. The animal hospital as a source of antibiotic-resistant staphylococci, 195
Loosli, C. G. See Hamre

Malaria, rodent, positive antiglobulin tests in rat anemias, due to, 339
Marston, J. Observations on L forms of staphylococci, 75
Melton, M. L. See Remington
Mergenhagen, S. E., E. G. Hampp and H. W. Scherp. Preparation and biological activities of endotoxins from oral bacteria, 304
Merriott, J., A. Shoemaker and C. M. Downs. Growth of *Pasteurella tularensis* in cultured cells, 136
Michael, J. G. and M. Landy. Endotoxic properties of Gram-negative bacteria and their susceptibility to the lethal effect of normal serum, 90
Middleton, G. K. and A. C. Standen. The electrocardiogram in fatal anthrax bacteremia, 85
Mogabgab, W. J. and B. Holmes. 2060 and JH viruses in secondary monkey kidney cultures, 59
Mogabgab, W. J., B. Holmes and W. Pelon. Influenza A B viruses in monkey kidney cultures. I. Properties of the viruses, 315
Moulder, J. W. See Greenland
Moyer, A. W. See Jungherr

Nichols, A. C. See Live
Nordberg, B. K. See Bonventre
Norman, L. See Kagan

Pande, P. G., P. C. Sekariah and P. K. Ramachandran. Studies on toxoplasmosis. I. Histological demonstration of pseudocysts in the brain of hill cattle, together with a note on the isolation of *Toxoplasma gondii* from the Himalayan flying squirrel, *Petaurista inornatus* Geoffrey, a new natural host, 68
Pappagianis, D., C. E. Smith, G. S. Kobayashi and M. T. Saito. Studies of antigens from young mycelia of *Coccidioides immitis*, 35
Parnas, J., K. Lazuga, T. Dabrowski and A. Kóslak. Strains of leptospirae evoking swamp fever in southeastern Poland: a four-year survey, 243
Pasteurella tularensis, growth in cell cultures, 136
Pearson, I. A. See Erlandson
Pelon, W. See Mogabgab
Phillips, B. P. and P. A. Wolfe. Pneumonic disease in germfree animals, 12
Poliovirus, evaluation of monkey neurovirulence test for attenuated vaccine, 247
Pseudomonas aeruginosa, role of various fractions of in pathogenesis, 218
Psittacosis group, genetic interaction in, 293
Pyelonephritis, enterococcal, pathogenesis in mice, 181

Ramachandran, P. K. See Pande
Remington, J. S., L. Jacobs and M. L. Melton. Congenital transmission of toxoplasmosis from mother animals with acute and chronic infections, 163
Roberson, B. S. and J. H. Schwab. Endotoxic properties associated with cell walls of group A streptococci, 25

Saito, M. T. See Pappagianis
Saslaw, M. S. See Streitfeld
Scherp, H. W. See Mergenhagen
Schmiterlöw, C. G. See Bonventre
Schwab, J. H. See Roberson
Seibert, F. B. See Vandiviere, H. M.
Sekariah, P. C. See Pande
Shoemaker, A. See Merriott
Sleight, S. D. See Bauer
Smith, C. E. See Pappagianis
Smith, F., P. D. Altland and B. Highman. Effect of high altitude acclimatization on formation of sheep erythrocyte hemolysin in rats, 311
Spira, D. See Zuckerman
Standen, A. C. See Middlebrook
Staphylocoagulase, in vitro activity of, 63
Staphylococcal infection, period of unusual microbial susceptibility in, 174
Staphylococci, antibiotic-resistant, in animal hospitals, 195
L forms of, 75
Staples, S. A. See VanEseltine
Stelos, P., L. G. Taliaferro and P. A. D'Alesandro. Comparative study of rabbit hemolysins to various antigens. III. Chromatographic analysis of Forssman hemolysins induced by various antigens, 113
Streitfeld, M. M. and M. S. Saslaw. Correlation of population age with recovery rates of β-hemolytic streptococci and serological responses: relationship to rheumatic fever, 270
Streptococci, beta hemolytic, correlation of population age with recovery rate, 270
group A, endotoxic properties of cell walls, 25
production of renal tubular lesions in mice, 107
Stuedell, J. T. See Koser
Suitor, E. C., Jr. and E. Weiss. Isolation of a rickettsialike microorganism (*Wolbachia persica*, n. sp.) from *Argas persicus* (Oken), 95

Taliaferro, L. G. See Stelos
Tan, E. M., D. B. Hackel and M. H. Kaplan. Renal tubular lesions in mice produced by group A streptococci grown in intraperitoneal diffusion chambers, 107
Toxoplasma gondii, occurrence in Indian hill cattle and Himalayan flying squirrel, 68
Toxoplasmosis, congenital transmission of, 163
Trainer, D. O., Jr., L. Karstad and R. P. Hanson. Experimental leptospirosis in white-tailed deer, 278
Tribby, I. See Koser
Trichinosis, urinary changes in, 1
Trypanosoma cruzi, duration of acquired immunity in mice, 213
Tubercle bacilli, drug-resistant, altered guinea pig response to, 53
Tuberculoproteins, purified, comparison with standard tuberculin, 45

Vandiviere, H. M., M. R. Vandiviere and F. B. Seibert. Comparison between purified individual tuberculoproteins and the international standard tuberculin, 45
Vandiviere, M. R., See Vandiviere, H. M.
VanEseltine, W. P. and S. A. Staples. Nutritional requirements of leptospirae. I. Studies on oleic acid as a growth factor for a strain of *Leptospira pomona*, 262
Venezuelan equine encephalomyelitis virus, alteration of virulence after passage in L cells and mice, 237
Viruses, 2060 and JH, growth in monkey kidney cultures, 59

Waisbren, B. A. See Erlandson
Weiss, E. See Suitor
Will, F. E. See Griffith
Wolbachia persica, n. sp., isolation from *Argas persicus*, 95
Wolfe, P. A. See Phillips

Zuckerman, A. and D. Spira. Blood loss and replacement in plasmodial infections. V. Positive antiglobulin tests in rat anemias due to the rodent malarias *Plasmodium berghei* and *Plasmodium vinckei*, to cardiac bleeding, and to treatment with phenylhydrazine hydrochloride, 339

TABLE OF CONTENTS

No. 1, January–February, 1961

PAGE

George R. Bernard. Experimental trichinosis of the golden hamster. III. Urinary changes with observations upon the urinary uric acid/creatinine ratio 1

Bruce P. Phillips and Patricia A. Wolfe. Pneumonic disease in germfree animals 12

Paul B. Johnston and J. Thomas Grayston. Titration of Asian influenza neutralizing antibody by use of hemadsorption inhibition in tissue cultures. 19

Bob S. Roberson and John H. Schwab. Endotoxic properties associated with cell walls of group A streptococci 25

D. Pappagianis, C. E. Smith, G. S. Kobayashi and Margaret T. Saito. Studies of antigens from young mycelia of *Coccidioides immitis* 35

H. Mac Vandiviere, Margaret R. Vandiviere and Florence B. Seibert. Comparison between purified individual tuberculoproteins and the international standard tuberculin 45

Lewis J. Griffith, A. M. Dietrich, Jr., Salvatore A. Denaro and Frank E. Will. Altered guinea pig response to tubercle bacilli following prior infection with drug-resistant bacilli 53

William J. Mogabgab and Barbara Holmes. 2060 and JH viruses in secondary monkey kidney cultures 59

Hans Blobel and David T. Berman. Further studies on the in vivo activity of staphylocoagulase 63

P. G. Pande, P. C. Sekariah and P. K. Ramachandran. Studies on toxoplasmosis. I. Histological demonstration of pseudocysts in the brain of hill cattle, together with a note on the isolation of *Toxoplasma gondii* from a Himalayan flying squirrel, *Petaurista inornatus* Geoffrey, a new natural host 68

Judith Marston. Observations on L forms of staphylococci 75

Gordon K. Middleton and Alfred C. Standen. The electrocardiogram in fatal anthrax bacteremia 85

J. Gabriel Michael and Maurice Landy. Endotoxic properties of Gram-negative bacteria and their susceptibility to the lethal effect of normal serum 90

Earl C. Suitor, Jr. and Emilio Weiss. Isolation of a rickettsialike microorganism (*Wolbachia persica*, n. sp.) from *Argas persicus* (Oken) 95

E. M. Tan, D. B. Hackel and M. H. Kaplan. Renal tubular lesions in mice produced by group A streptococci grown in intraperitoneal diffusion chambers 107

Peter Stelos, Lucy Graves Taliaferro and Philip A. D'Alesandro. Comparative study of rabbit hemolysins to various antigens. III. Chromatographic analysis of Forssman hemolysins induced by various antigens ... 113

Robert G. Garrison. Studies of the respiratory activity of *Histoplasma capsulatum*. I. Aspects of the aerobic metabolism of the yeast phase 120

No. 2, March–April, 1961

Walter R. Dowdle and P. Arne Hansen. A phage-fluorescent antiphage staining system for *Bacillus anthracis* 125

John Merriott, Alice Shoemaker and Cora M. Downs. Growth of *Pasteurella tularensis* in cultured cells 136

Dorothy Hamre, Clayton G. Loosli and Richard C. Ewert. Antigenic variants of influenza A virus (PR8 strain). VI. Results of repeated passages of the same variant in mice immunized with monovalent homologous vaccine or polyvalent vaccine 151
Jack S. Remington, Leon Jacobs and Marjorie L. Melton. Congenital transmission of toxoplasmosis from mother animals with acute and chronic infections 163
Peter Dineen. A period of unusual microbial susceptibility in an experimental staphylococcal infection 174
Arvid L. Erlandson, Jr. and Leola A. Gagliardi. The pathogenesis of experimental enterococcal pyelonephritis in mice 181
Arvid L. Erlandson, Jr., Myron W. Fisher, Leola A. Gagliardi, Iris A. Pearson and Burton A. Waisbren. Characteristics of strains of *Escherichia coli* associated with severe infections in adults 189
I. Live and A. C. Nichols. The animal hospital as a source of antibiotic-resistant staphylococci 195
Peter F. Bonventre, Bertel K. Nordberg and Carl G. Schmiterlöw. An autoradiographic study of anthrax infection in the mouse 205
Irving G. Kagan and Lois Norman. Immunologic studies on *Trypanosoma cruzi*. III. Duration of acquired immunity in mice initially infected with a North American strain of *T. cruzi* 213
Pinghui V. Liu, Yoshio Abe and Janice L. Bates. The roles of various fractions of *Pseudomonas aeruginosa* in its pathogenesis 218
D. C. Bauer, L. N. Eames, S. D. Sleight and L. C. Ferguson. The significance of leptospiral hemolysin in the pathogenesis of *Leptospira pomona* infections 229
Henry J. Hearn, Jr., Arthur Brown and Frank M. Hardy. Alteration of virulence of Venezuelan equine encephalomyelitis virus after passage in L cell cultures and in mice 237

No. 3, May–June, 1961

Józef Parnas, Kazimierz Lazuga, Tadeusz Dabrowski and Adolf Kóslak. Strains of leptospirae evoking swamp fever in southeastern Poland: a four-year survey 243
Erwin L. Jungherr, Victor J. Cabasso, Arden W. Moyer and Herald R. Cox. Proposed method and evaluation of the monkey neurovirulence test for attenuated poliovirus vaccine 247
William P. VanEseltine and Sarah Anne Staples. Nutritional requirements of leptospirae. I. Studies on oleic acid as a growth factor for a strain of *Leptospira pomona* 262
Murray M. Streitfeld and Milton S. Saslaw. Correlation of population age with recovery rates of β-hemolytic streptococci and serological responses: relationship to rheumatic fever 270
D. O. Trainer, Jr., Lars Karstad and R. P. Hanson. Experimental leptospirosis in white-tailed deer 278
Rima M. Greenland. A nonlethal mutant of penicillin-resistant feline pneumonitis virus 287
Rima M. Greenland and James W. Moulder. A search for genetic interaction in the psittacosis group 293
Stephen E. Mergenhagen, Edward G. Hampp and Henry W. Scherp. Preparation and biological activities of endotoxins from oral bacteria 304
Falconer Smith, P. D. Altland and B. Highman. Effect of high altitude acclimatization on formation of sheep erythrocyte hemolysin in rats 311
William J. Mogabgab, Barbara Holmes and William Pelon. Influenza A and B viruses in monkey kidney cultures. I. Properties of the viruses 315
Stewart A. Koser, Ilse Tribby and Joan T. Stuedell. Glucosamine utilization by some lactic acid bacteria 324

Bob A. Freeman, Damon J. Kross and Richard Circo. Host-parasite relationships in brucellosis. II. Destruction of macrophage cultures by brucella of different virulence 333
Avivah Zuckerman and Dan Spira. Blood loss and replacement in plasmodial infections. V. Positive antiglobulin tests in rat anemias due to the rodent malarias *Plasmodium berghei* and *Plasmodium vinckei*, to cardiac bleeding, and to treatment with phenylhydrazine hydrochloride 339
Index 349

GENERAL INDEX, 109, NO. 1, 2 AND 3 (1961)

Amino acid incorporation, inhibition by beta-3-thienyl-DL-alanine, 223

Bacterial infection, effect of alteration in intestinal flora on host resistance to, 280
Benson, W. W. See Stoenner
Berdjis, C. C., C. A. Gleiser, W. S. Gochenour and T. O. Berge. Virus infection and X radiation. A comparative study of infection with an attenuated Venezuelan equine encephalomyelitis virus and of X radiation, 62
Berge, T. O. See Berdjis
Berry, L. J. See Houser
Blumberg, R. See Nahmias
Bonventre, P. F. Effect of diphtheria toxin on the metabolism of animal tissues and tissue cultures, 287
Brown, A. See Litwin
Brucella, intracellular destruction of, 71
Burrows, W., G. M. Musteikis and C. Danziger. Studies on immunity to Asiatic cholera. XI. The distribution of complement-fixing antigen in electrophoretic fractions of heat-stable cell wall and intracellular substance of *Vibrio cholerae* serotypes, 172

Casey, M. See Stoenner
Chin, T. D. Y. See Gravelle
Cholera, enumeration of vibrios in fecal samples, 31
evaluation of intestinal fluids in pathogenesis of, 35
excretion of toxin in, 81
Clostridium botulinum, type F and other types, 107
Crawford, Y. E. See Stille
Cryptococcus neoformans, effect of properdin on experimental infections with, 147

Danziger, C. See Burrows
Dineen, P. The effect of alterations in intestinal flora on host resistance to systemic bacterial infection, 280
Diphtheria toxin, effect on metabolism of animal tissues and tissue cultures, 287
Doege, A. See Nahmias
Dolman, C. E. and L. Murakami. *Clostridium botulinum* type F with recent observations on other types, 107
Donavan, J. D., D. Ham, G. M. Fukui and M. J. Surgalla. Role of the capsule of *Pasteurella pestis* in bubonic plague in the guinea pig, 154
Downs, C. M. See McElree
Dusanic, D. G. See Lewert
Dutta, N. K. See Panse

Ehrlich, R. See Purvis
Elberg, S. S. See Ralston
Enterovirus, methods for isolation from sewage, 205
Evans, J. See Verder

Foter, M. J. See Wilson
Freter, R., H. L. Smith, Jr. and F. J. Sweeney, Jr. An evaluation of intestinal fluids in the pathogenesis of cholera, 35
Also see Smith
Fukui, G. M. See Donavan

Gadebusch, H. H. Natural host resistance to infection with *Cryptococcus neoformans*. I. The effect of the properdin system on the experimental disease, 147
Gleiser, C. A. See Berdjis
Gochenour, W. S. See Berdjis
Gravelle, C. R. and Chin, T. D. Y. Enterovirus isolations from sewage: a comparison of three methods, 205
Gray, J. E. See Lewis, D.

Hahon, N. and M. H. McGavran. Air-borne infectivity of the variola-vaccinia group of poxviruses for the cynomolgus monkey, *Macaca irus*, 294
Ham, D. See Donavan
Hampp, E. G. and Mergenhagen, S. E. Experimental infections with oral spirochetes, 43
Harvey, K. A. See Stoenner
Heyneman, D. Studies on helminth immunity. III. Experimental verification of autoinfection from cysticercoids of *Hymenolepis nana* in the white mouse, 10
Houser, E. D. and L. J. Berry. The pathogenesis of staphylococcus infections. I. The use of diffusion chambers in establishing the role of staphylococcus toxins, 24
Hruban, Z. See Szentivanyi, 223
Hymenolepis nana, autoinfection in the mouse, 10

Influenza virus, comparison of monkey kidney-propagated and chick embryo-propagated, 136

Johnston, P. B. A second immunologic type of simian foamy virus: monkey throat infections and unmasking by both types, 1

Lackman, D. B. See Stoenner
Leptospira pomona, experimental infections in gerbils, 194
Leptospires, electron microscope studies of, 243
Lewert, R. M. and D. G. Dusanic. Effects of a symmetrical diaminodibenzylalkane on alkaline phosphatase of *Schistosoma mansoni*, 85
Lewis, D. and J. E. Gray. Experimental *Leptospira pomona* infection in the mongolian gerbil (*Meriones unguiculatus*), 194
Lewis, K. H. See Wilson
Litwin, J., J. E. Officer, A. Brown and J. W. Moulder. A comparative study of the growth cycles of different members of the psittacosis group in different host cells, 251

McElree, H. and C. M. Downs. The phagocytosis of *Pasteurella tularensis* by rat mononuclear cells as influenced by normal serums and various irritants, 98
McGavran, M. H. See Hahon
McLean, D. M., S. J. Walker, L. W. MacPherson, T. H. Scholten, K. Ronald, J. C. Wyllie and E. J. McQueen. Powassan virus: investigations of possible natural cycles of infection, 19
MacPherson, L. W. See McLean
McQueen, E. J. See McLean
Mather, J. See Stoenner
Mergenhagen, S. E. See Hampp
Miller, S. See Purvis
Mogabgab, W. J. Influenza A and B viruses in monkey kidney cultures. II. Immunogenicity and characteristics of the neutralization reaction as compared to those of chick embryo-propagated viruses, 136
Moulder, J. W. See Litwin
Murakami, L. See Dolman
Musteikis, G. M. See Burrows

Nahmias, A., N. Sakurai, R. Blumberg, A. Doege and C. Sulzer. The staphylococcus "80/81 complex": epidemiological and laboratory observations, 211

Officer, J. E. See Litwin

Paffenbarger, R. S., Jr. See Wilson
Panse, M. V. and N. K. Dutta. Excretion of toxin with stools of cholera patients, 81
Pasteurella pestis, role of capsule in guinea pig infections, 154
Pasteurella tularensis, phagocytosis of, 98
Pierce, W. See Stille
Powassan virus, natural cycles of infection in, 19
Poxviruses, air-borne infectivity for cynomolgus monkeys, 294
Pseudomonas aeruginosa, antigenic schema for identification of, 183
Psittacosis lymphogranuloma group, comparative study of growth cycles, 251
diaplacental transmission of, 129
Purvis, M. R., S. Miller and R. Ehrlich. Effect of atmospheric pollutants on susceptibility to respiratory infection. I. Effect of ozone, 238

Q fever, epidemiology of, 90

Radovich, J. See Szentivanyi, 223, 231
Ralston, D. J. and S. S. Elberg. Intramonocytic destruction of brucella: potentiating effect of glycine on intracellular lysozyme activity, 71
Respiratory illness, significance of multiple infections in, 158
Respiratory infection, effect of ozone on susceptibility, 238
Ronald, K. See McLean

S^{35} radioactivity, separation of different forms in serum and tissue, 231
Sakurai, N. See Nahmias
Salmonellae, prevalence in meat and poultry products, 166
Schistosoma mansoni, effect of a diaminodibenzylalkane on, 85
Scholten, T. H. See McLean
Simpson, C. F. and F. H. White. Electron microscope studies and staining reactions of leptospires, 243
Smith, H. L., Jr., R. Freter and F. J. Sweeney, Jr. Enumeration of cholera vibrios in fecal samples, 31
Also see Freter
Spirochetes, oral, experimental infections with, 43
Staphylococci, epidemiological and laboratory studies on "80/81 complex," 211
Staphylococcus infections, role of toxins in, 24
Stille, W. T., W. Pierce, and Y. E. Crawford. Multiple infections in acute respiratory illness. I. Severity of illness of naval recruits and independence of infectious agents, 158

Stoenner, H. G., D. B. Lackman, W. W. Benson, J. Mather, M. Casey and K. A. Harvey. The role of dairy cattle in the epidemiology of Q fever in Idaho, 90
Storz, J. The diaplacental transmission of psittacosis-lymphogranuloma group viruses in guinea pigs, 129
Sulzer, C. See Nahmias
Surgalla, M. J. See Donavan
Sweeney, F. J., Jr. See Freter; also see Smith
Szentivanyi, A., Z. Hruban, J. Radovich and D. W. Talmage. Inhibition of incorporation of S^{35}-labeled amino acids into tissue and serum proteins by beta-3-thienyl-DL-alanine, 223
Szentivanyi, A., J. Radovich and D. W. Talmage. The separation of free disulfide-bound and peptide-bound S^{35} radioactivity in serum and tissues, 231
Talmage, D. W. See Szentivanyi, 223, 231
Verder, E. and J. Evans. A proposed antigenic schema for the identification of strains of *Pseudomonas aeruginosa*, 183
Vibrio cholerae, antigens of, 172
Virus, simian foamy, 1
  Venezuelan equine encephalomyelitis, comparison of infection and X radiation, 62
Walker, S. J. See McLean
White, F. H. See Simpson
Wilson, E., R. S. Paffenbarger, Jr., M. J. Foter and K. H. Lewis. Prevalence of salmonellae in meat and poultry products, 166
Wyllie, J. C. See McLean
